

Safeguarding Competency Framework (2)

As part of the new strategy, individuals will be required to evidence how they meet the competencies listed in their group.

Processes that are already in use in your organisation could be adapted or extended to evidence that the competency has been met.

TASK:

Evidencing competency (h) Group 2 – ‘An awareness of the Local Safeguarding Children Board and its remit’.

Assign one person to find out about the LSCB and what they do and ask them to prepare a 10 minute presentation to feed back to the rest of the group.

Safeguarding Competency Framework (2)

Working Together

Local Safeguarding Children's Board Procedures (March 2015) states that 'effective safeguarding of children can only be achieved by putting children at the centre, and by every individual and agency working together to meet the needs of our most vulnerable children'.

TASK:

Devise a mind map with the child at the centre and include other individuals and agencies that may be involved with the child.

How could this help to provide evidence for your competencies?
