

Inclusive provision for children with SEND in Early Years

Easy read – Visual

For children with physical and sensory (**visual**) needs you will do everything you are doing for all children AND

	Change the nursery environment as needed, e.g. blinds at windows, shade in the garden (following advice from Vision Support Team)
	Make sure the child uses any special equipment
	Follow advice from the Vision Support Team (VST). Share planning shared with VST so they can help with adapting activities.
	Use resources the child can feel, e.g. collage items (a multi-sensory approach)

Make sure the child has times to **rest**

Arrange **Fun Time** sessions to teach attention and listening, understanding, speaking and social skills

Provide a **quiet area** for 1-1 activities
